

Shepherd & King Curtain Selection Guide

Established 2025 | Bangalore Curtaining Atelier

Quick Specification Notes

1. Sheers: best for soft daylight, layered living rooms, and privacy without darkness.
2. Blackout: best for bedrooms, media rooms, and heat/light control.
3. Silk Draperies: best for formal spaces where lustre, lining, and controlled folds matter.
4. Velvet: best for acoustic softness, insulation, and a heavier editorial fall.
5. Motorized Tracks: best for tall windows, balcony spans, and smart-home routines.

Measurement Checklist

- Window width, finished curtain drop, mounting surface, track type, lining requirement.
- Share room photos and sunlight direction before consultation.
